KARTIK GOYAL

Full-Stack & AI Developer | Gurugram, India | goyalkartik208@gmail.com
github.com/kartikgoyal | linkedin.com/in/kartikgoyal | Specializing in AI Retrieval & Agent Systems

PROFESSIONAL SUMMARY

Passionate engineer specializing in backend systems, automated real-time alerts, AI-driven tools, and mobile-responsive web applications. Experienced in async queues, WhatsApp/Twilio webhooks, and React/Next.js.

FEATURED 2026 PROJECTS

1. SocietyPool - AI Hyperlocal Group-Buying Platform [Hackathon Winner] (03/2026)
- Built dynamic step-function tier pricing algorithms unlocking up to 30% group discounts.
- Integrated OpenAI API Society Copilot for instant community booking drafts and WhatsApp announcements.
- Tech: Next.js, OpenAI API, Node.js, WhatsApp Automation

2. MedAlert - Automated Healthcare Escalation System (02/2026)
- Architected async timer scheduler managing non-blocking patient dose intake windows.
- Automated WhatsApp Caretaker Escalation pipeline triggering in < 2 minutes if medicine unlogged.
- Tech: JavaScript, Node.js, WhatsApp API, Twilio, Async Timers

3. Full-Stack E-Commerce Platform (01/2026)
- Production storefront with reactive cart state management, checkout flows, and inventory decrements.
- Implemented JWT token authentication with bcrypt hashing and RBAC admin controls.
- Tech: React, Node.js, Express, MongoDB, Tailwind CSS

TECHNICAL SKILLS

Languages & Frontend: JavaScript (ES2026), TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS
Backend & Database: Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs, Redis
APIs & Automation: OpenAI API, Twilio API, WhatsApp Cloud API, Async Timers, Webhooks
DevOps & Tools: Git, GitHub Actions, Vercel, Netlify, Docker, Postman, Linux CLI

EDUCATION

B.E. in Computer Science & Engineering (2026 - 2030) - First Class with Distinction
